To Whom it May Concern,

**RE: Over the Top Roofing**

Over the Top Roofing have engaged Clearsafe to undertake visual inspections for their asbestos roof removal work for over 1 year to date. We have inspected close to 40 roof removal works undertaken by Over the Top Roofing and each one has been completed to a satisfactory industry standard.

I have no hesitation in recommending Nathan and the team at Over the Top Roofing to undertake asbestos roof removal, knowing with confidence that will do so in accordance to the Code of Practice and in a safe and efficient manner

For any queries or further information please contact me on 0447 494 281 or [nathan.aust@clearsafe.com.au](mailto:nathan.aust@clearsafe.com.au).

Kind Regards,

I have used Over the top roofing for my renovation and new work,

Where some roofs have been very tricky and they have always excelled providing me a problem free roof and their workmanship has been second to none

They have always been very polite and always on time and finished the job before time, as Nathan the owner understands that the roof must go on,

I will continue to use them, as every time they have finished the job the site was left spotless on every job and that is a blessing for builders

Thank you once again

Kind regards

Marcio Mendonca

To any property owner in the greater South East Queensland area who has Asbestos Products in their building, roof or fences do not delay in removing this known cancer causing material. This material widely used up to the early 1990s should only be handled by Experts with years of experience, Queensland WHS licensing and a dedicated work crew, Over The Top Roofing ticks all the boxes.

Don't risk your health or your families health by taking a cheap quote.

Nathan and his team are the leaders in eliminating this modern day scourge of Asbestos.

Over The Top Roofing has my personal and professional recommendation.

Thank you for the opportunity to offer this recommendation.

**SUNSTATE PROJECTS**  
Building, Landscape Design and Construction

***To whom it may concern:***

***SunState Projects has had numerous successful working relationships with Over the Top Roofing. The projects have ranged from small repair and maintenance jobs to full reroofs and more complex complete roof replacements.***

***During these projects, we have had opportunity to inspect workmanship and to observe the general conduct of Over the Top Roofing. We have found their work to be of a high standard and employees to be competent and conscientious.***

***Over the Top Roofing have proven to be skilled and experienced in the application of most types of roofing systems currently being used.***

***I have no reservations in recommending Over the Top Roofing as a qualified and dependable roofing contractor.***

***Should you have further questions or require more information, please do not hesitate to contact me.***

***Regards***

***Dave Wotton***
