

WELCOME TO NAVALA

Navala, a combination of the portuguese words 'na' & 'vala', means "in the trench" - a traditional & ancient cooking technique that evolved into the famous Brazilian BBQ method known as Churrasco.

Originating in the mountains of Southern Brazil, 'Gaicho' (Cowboys) would set ablaze great trenches of wood & charcoal and surround them with giant cuts of meat skewered to the ground. At navala, we strive to bring you this unique & truly authentic experience in a modern, vibrant setting.

WE STRIVE TO SOURCE THE BEST PRODUCE FOR OUR MENU.

Through our partnership with JBS, we are able to present a unique range of prime cuts exclusively produced for navala.

JBS is the world's largest producer of fine meats and is committed to maintaining the highest levels of food safety, animal welfare and product quality.

With JBS as our main meat supplier, our customers can expect consistent, delicious BBQ meats with each navala experience
