A Little About Us:

STA Consulting Engineers is one of Australia's leading engineering & consulting companies for over twenty years providing project solutions to meet today's business demands throughout Queensland, Northern New South Wales & South Australia.

Our highly trained and professional staff are constantly updating their skills and knowledge, ensuring the quality of advice and workmanship from all our engineering divisions are second to none.

STA Consulting Engineers provides engineering solutions from concept stage to detailed designs in structural, civil, geotechnical, soil test foundation and building hydraulic disciplines.

We provide our clients with innovative engineering solutions based on excellence in safety, environmental & quality management.

How's this for a one stop shop:

- Site Investigation, Soil Testing & Classification for Building Sites
- Conventional & Leading Edge Technology Building Foundation Design (Residential & Commercial)
- Structural Engineering (Residential & Commercial)
- Geotechnical Engineering
- Building Hydraulic Engineering
- Research, Development, Design & Inspection Services.

We will work in together with yourself and your selected Architect/Building Designer/Builder to ensure your next project will be as hassle free and economical to you as possible.
