NSW Wide

Fully Insured

25 years' experience

Licensed builders 947C

48 hour turnaround service

Court tested and accepted formats

Labelled high definition digital photos

Reliable, accurate surveys (Competitive prices)

## WHO WE ARE

We are a team of highly experienced builders/surveyors, who offer an unrivalled level of client service in terms of professionalism, accuracy, monitoring works, speed and cost-effectiveness. Dilapidation surveys are what we specialise in. This enables us to excel in what we do. Best Inspections has been established since 1990 to meet a significant increase in demand for Specialist Dilapidation services. The rapid rise in cases, government deregulation of building inspection industry, together with the requirement for a higher level of specialist knowledge has resulted in a shortage of professional service providers in our industry.

## OUR MISSION

To protect our clients by providing unparalleled expertise and results within all areas of dilapidations, and to set the standard for high quality, efficiency and service provided to all clients.

## WHAT WE OFFER

We offer the most advanced dilapidation reports available. With our specially designed dilapidation report software and the best available equipment, our photographic reports cannot be matched.

## SOME OF OUR CLIENTS

Helm Properties, Christie Civil, Capital Corporation,  
Capcorp, Sydney Interior Fitouts,  
Murphy's Group Services
