

TECHCOMM LEGAL

Leading Technology & Communications Lawyers

IT Expertise

In the area of IT law our lawyers have advised clients on all aspects of the purchase and supply of IT products and services.

Our lawyers assist purchasers and suppliers of IT products and services to enter into IT agreements which clearly describe the products and services, contain appropriate service levels and minimise their legal and commercial risks and costs.

Our lawyers also assist purchasers and suppliers of IT products and services to take appropriate steps to ensure that their IT agreements comply with applicable laws including intellectual property, privacy, telecommunications, corporations, insurance, taxation and trade practices laws.

In the area of IT law our lawyers have provided legal services to clients involving advising on, drafting and negotiating:

- consultancy agreements
- escrow agreements
- GITC contracts
- hardware supply and maintenance agreements
- outsourcing and offshoring agreements
- service level agreements
- shrink-wrap and click-through licences
- software licensing and support agreements
- software development and support agreements
- systems integration contracts
- website development and hosting agreements

Telecommunications Expertise

In the area of telecommunications law our lawyers have advised clients on nearly all aspects of the telecommunications regulatory framework and the purchase and supply of telecommunications products and services.

Our lawyers assist property owners and managers to appropriately deal with requests by telecommunications carriers under the telecommunications regulatory framework for access to their properties to install, operate and maintain telecommunications equipment and facilities.

Our lawyers also assist purchasers and suppliers of telecommunications services to enter into services agreements which clearly describe the services, contain appropriate service levels and minimise their legal and commercial risks and costs.

In the area of telecommunications law our lawyers have provided legal services to clients involving:

- advising on compliance with the telecommunications regulatory framework
- advising on the installation of telecommunications equipment and facilities in buildings
- advising on the purchase and supply of telecommunications services
- advising on, drafting and negotiating property and site access and licence agreements
- advising on, drafting and negotiating telecommunications services agreements
- preparing and lodging objections to the installation of telecommunications facilities in buildings

Intellectual Property Expertise

In the area of intellectual property law our lawyers have advised clients on nearly all types of intellectual property rights including copyright, trade marks, patents, designs, confidential information, circuit layouts and moral rights.

Our lawyers assist purchasers, suppliers and developers of technology products and services to understand and apply intellectual property rights to the development, use and supply of the products and services.

In the area of intellectual property law our lawyers have provided legal services to clients involving:

- advising on intellectual property rights in materials accessible over the Internet
- advising on the ownership, protection, commercialisation and infringement of intellectual property rights
- advising on the protection and infringement of moral rights
- advising on the registration and protection of domain names
- advising on, drafting and negotiating assignment and novation agreements, commercialisation agreements, confidentiality agreements, consultancy agreements, licensing agreements, sponsorship agreements, and research and development agreements
- preparing and lodging business name applications
- preparing and lodging trade mark and design applications

E-commerce Expertise

In the area of e-commerce law our lawyers have advised clients on nearly all aspects of e-commerce transactions.

Our lawyers assist suppliers of online goods and services to enter into e-commerce agreements which clearly describe the products and services, contain appropriate service levels and minimise their legal and commercial risks and costs.

Our lawyers also assist suppliers of online goods and services to comply with e-commerce laws and other applicable laws including intellectual property, privacy, telecommunications, trade practices, corporations and taxation laws.

In the area of e-commerce law our lawyers have provided legal services to clients involving:

- advising on and drafting terms and conditions for the online supply of goods and services
- advising on compliance with electronic transactions legislation and other applicable laws
- advising on:
 - applicable jurisdiction
 - digital signatures
 - electronic banking
 - email and internet policies
 - identity authentication
 - internet website development
 - online security
 - password protection

Privacy Expertise

In the area of privacy law our lawyers have advised clients on all aspects of privacy.

Our lawyers assist clients to comply with federal and state privacy laws when collecting, using, disclosing, storing and otherwise handling personal information (including credit information and tax file number information) and health records information.

Our lawyers also assist clients to put in place appropriate privacy policies and procedures for the handling of personal information and health records information.

In addition, our lawyers assist clients to enter into agreements involving the handling of personal information and health records information which comply with all applicable laws including federal and state privacy laws.

In the area of privacy law our lawyers have provided legal services to clients involving:

- advising on, drafting and negotiating privacy clauses for agreements
- advising on and drafting privacy policies, privacy collection statements and privacy consents
- advising on compliance with privacy, spam, computer crime and surveillance laws
- advising on the protection of personal information and health records information
- advising on requests for access to personal information and health records information
- providing privacy compliance training and undertaking privacy compliance audits

Commercial Expertise

In the area of commercial law our lawyers have assisted clients in relation to a wide range of commercial matters including:

- anti-competitive conduct
- bankruptcy and insolvency
- business structures
- commercial contracts
- commercialisation agreements
- company obligations
- consumer rights
- dispute resolution
- distribution agreements
- fair trading
- franchise agreements
- incorporated associations
- insurance contracts
- joint venture agreements
- licence agreements
- partnership agreements
- procurement and tenders
- regulatory compliance
- sponsorship agreements
- statutory compliance
- trade practices
- trust deeds

About Us

TechComm Legal is a leading technology and communications law firm based in Melbourne which provides clients with high quality, cost-effective legal services.

We have a wealth of knowledge and expertise gained from advising both private and public sector clients over more than 30 years in the areas of IT, telecommunications, intellectual property, e-commerce, privacy and commercial law.

Our lawyers have experience providing legal services to the largest private and public sector organisations including many ASX top 20 companies and large federal and state government departments.

We appreciate the importance of maintaining up to date knowledge of not only the latest developments in technology and communications law but also the latest developments in technology and communications products and services.

We provide clients with legal services on time and within budget to meet their legal needs by:

- providing clear, practical and strategic commercial advice to achieve their objectives
- seeking to minimise their legal and commercial risks and costs
- providing a high level of service at a competitive rate which affords value for money
- meeting the highest service levels for the delivery of legal services to clients
- not exceeding fee estimates agreed with clients without their approval

Our Service Levels

We commit to meeting the highest service levels for the delivery of legal services to clients which include:

- upon receipt of instructions – immediate acknowledgement of receipt and request for any necessary further instructions
- request for written advice (urgent) – advice provided within one working day or sooner by arrangement
- request for written advice (non-urgent) – advice provided within ten working days or sooner by arrangement
- request for telephone advice (urgent) – advice provided same working day or sooner by arrangement
- request for telephone advice (non-urgent) – advice provided within two working days or sooner by arrangement
