REIKI TREATMENT works by rebalancing the body's energy flow; it removes blockages within the body which may have been built up for years resulting in physical pain, stress, emotional worries and an inability to move forward. **A REIKI treatment will leave you feeling re-energized, re-vitalised and re-motivated.**

REIKI is a Japanese method of healing using the hands-on laying technique developed by a Buddhist Mikao Usui. It uses the natural energy that animates all the living beings. The goal of Reiki session is to create balance and harmony in the recipient which in turn promotes healing.
