If vehicle surveillance is required over more than one day it's highly recommended that a hire car be utilised on the second day, and different hire vehicles on subsequent days.

Depending on the complexity and sensitivity of the tasking you may wish to consider using multiple surveillance vehicles. By comparison - It is not uncommon for Police surveillance operations to use more than six surveillance vehicles on a single target.

Where a hire car is used the client is not required to pay the travel allowance (90 cents per km) noted above (with the exception of kms to pickup and drop-off the hire vehicle).

The client is responsible for all hire car charges and payment will be required prior to the completion of the rental agreement.
