

# Synthetic Turf **Bliss**

## About Turf Direct 2 U

Turf Direct 2 U is a South Australian owned business. Our synthetic turf is made in Australia for harsh Australian conditions. It has an incredibly realistic feel, yet is also durable enough to be used for commercial purposes and is up to the job of handling heavy traffic, including kids and pets.

## Synthetic Turf “Bliss”

Synthetic turf Bliss looks and feels real, just like a lush well maintained lawn should. It introduces rich organic colour and texture, designed and made here in Australia to blend in and endure our sometimes harsh local landscape.

Bliss synthetic lawn is so soft you would be forgiven for thinking is delicate, yet it stands up to the toughest of environments.

Bliss is a budget turf designed for residential use with a 40mm pile height. Four different colour yarns create a natural looking turf that will enhance the look of your home and provide a maintenance free area year after year.

### Designed for Endurance

Sand infill is brushed into the synthetic grass and is held firmly in place by the interlocking fibres, resisting vandalism and wear and tear. All Turf Direct 2 U products are made in Australia with long manufacturer’s warranties.

### Fire Resistance

Bliss synthetic turf will not ignite. Small localised burns can be easily concealed by brushing up new fibres from below the infill.

### Climate Extremes and UV protection

Our Synthetic surfaces are designed and made in Australia to withstand harsh Australian conditions they are UV protected and are guaranteed against extreme fading and degradation from sunlight.

### Environmentally Friendly

Bliss is 100% lead free. Our synthetic grasses do not contain any lead based materials.
