

GLOBAL REACH HUMAN TOUCH

Seabridge offers complete and efficient global supply chain solutions that are backed by a wealth of experience in the complexities of international logistics.

Network

Seabridge has established a strong presence in all major ports through a large network of trusted agents and partners. These quality relationships ensure a flexible, reliable and responsive single-source solution.

Specialising in global logistics, Seabridge takes a tailored approach to international freight forwarding.

As a comprehensive international freight and logistics provider, Seabridge offers a full range of services, from individual logistics requirements to complete and customised solutions for all global supply chain needs. Take advantage of the network of a global forwarder with the flexibility of a local provider.

Seabridge is committed to providing the highest level of customer service possible, working closely with clients to foster longstanding relationships and to develop solutions that best serve individual supply chain needs. By considering each business independently and applying extensive experience in the industry, Seabridge can offer advice and knowledge that is customised for an integrated and complete global supply chain.

Seabridge team members have the experience and training to facilitate all aspects of international freight forwarding, creating optimum solutions across air, land and sea. Every movement of cargo is managed by a logistics specialist, allowing the client direct operational contact at all stages of the supply chain.

[Company Overview](#)

Long standing relationships with leading ocean carriers, as well as vast experience in sea cargo secures competitive rates, capacity and flexible sailing options.

A reliable international ocean freight provider is crucial to global supply chain success.

Seabridge is able to facilitate the transport of all ocean freight, offering expert advice for cost effective and reliable routing, transit times and shipping schedules.

Drawing on a wealth of ocean freight experience, Seabridge is able to solve the most complex of supply chain challenges.

Air Freight

When every minute counts.

Airborne Express delivers cargo on time, every time. With access to 1250 flights daily, 78 airports and Australia's leading airlines, same day delivery is guaranteed.

Your **time critical** cargo solution.

airborneexpress.com.au

Priority Door to Door Domestic Air Freight

Real Time Tracking

Guaranteed Same-Day Interstate Delivery

When deadlines are critical, relying on Airborne Express ensures time sensitive cargo is delivered on time, every time.

Airborne Express is a premium door-to-door air cargo service, flying between all capital cities and selected regional airports throughout Australia. Partnered with Australia's leading airlines and with access to over 1250 flights daily, across a domestic network of more than 78 airports, delivery in the shortest time frame possible is guaranteed.

Every shipment has a dedicated Airborne Express representative, who tracks every movement of cargo, from collection, flight uplift and express delivery to the final destination. Live tracking, teamed with industry best practice in our handling, loading and driver security protocols, freight is always in safe hands.

Utilising the exclusive myCargo service, a shipment can be tracked from the moment it is picked up, through to the final destination. This state of the art tracking interface enables real time updates and complete transparency throughout the entire delivery.

Airborne Express

A high level of education, experience and regular training ensure Seabridge Customs Brokers are kept up to date with the latest government legislative requirements affecting customs clearance.

To be sure of 100% compliance, it is important to receive the most accurate advice.

Seabridge's extensive knowledge of government legislation and requirements provides a complete single-solution to ensure compliance, whilst aiming to reduce customs import duty and other taxes.

From the management of prohibited or restricted imports to audits and advice involving Free Trade Agreements, Seabridge can ensure you remain compliant through all facets of customs and quarantine clearance.

The experienced team of customs brokers have full accreditations with the Department of Agriculture and Water Resources (DAWR) and work closely with other government departments including Australian Border Force (ABF) to ensure full compliance.

- Duty drawback claims
- Tariff advice
- Application of duty concessions and audits
- Free Trade Agreement advice

Customs
Consultancy

Seabridge acts as your strategic partner, safeguarding compliance while providing a single-source solution.

The Seabridge customs team is dedicated to having goods priority cleared, before arrival.

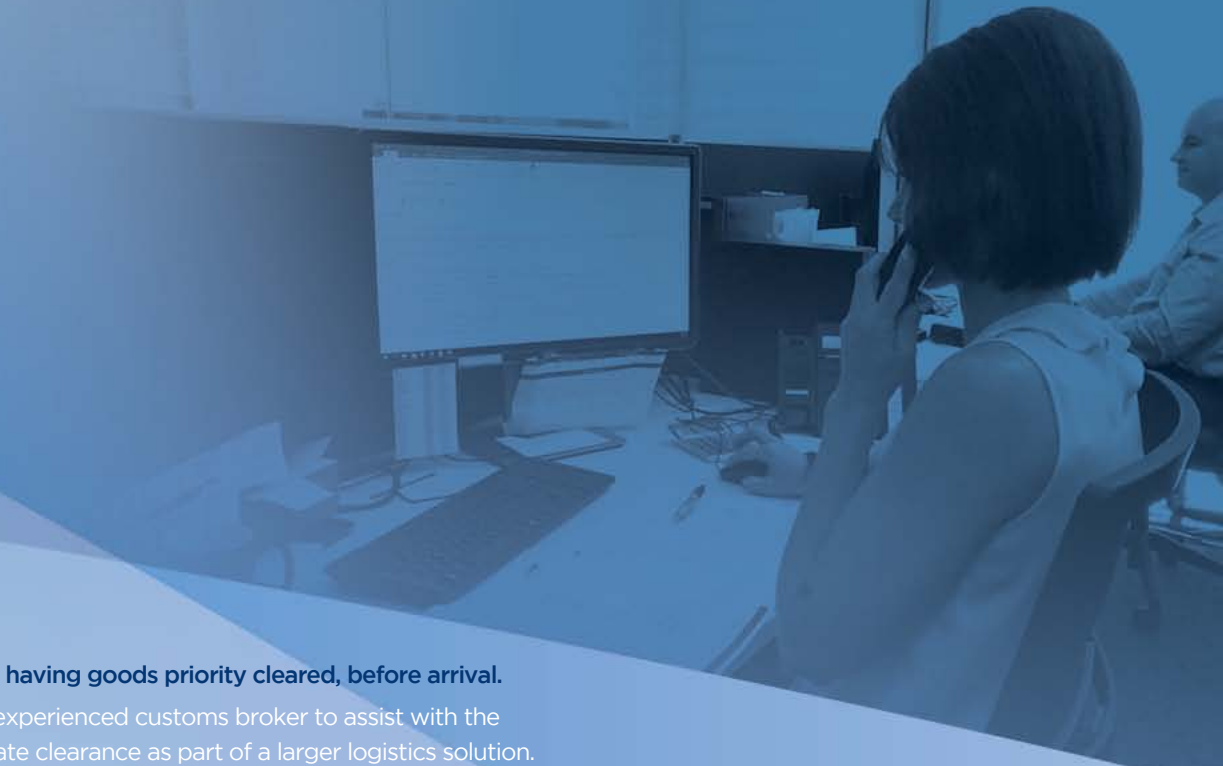

Seabridge offers the services of an in-house, experienced customs broker to assist with the clearance of individual shipments, or to facilitate clearance as part of a larger logistics solution.

Seabridge can facilitate the clearance of goods with government authorities throughout the world, providing a comprehensive service for every Australian port as part of an integrated global network.

- Declaration submission
- Calculation and facilitation of taxes, duties and excises
- Landed costings
- Hassle free clearance of goods

Customs Clearance

Clients expect end-to-end, up to date cargo solutions that freely and easily allow them to transport cargo from A to B.

With myCargo if it moves, it can be tracked.

Industry leading online management tool, myCargo takes transparency to the next level. From initial booking right through to final delivery, shipments can be tracked, traced and managed. The international supply chain has never been more accessible.

A flexible, transparent and efficient tracking platform is crucial to supply chain performance, especially when the cargo is time critical and there is little to no room for error or delay. In order to deliver on time, every time, every step of a shipment needs to be tracked to ensure clients peace of mind and aid in delivering consistent service with greater control.

- Live order status
- Sailing schedules
- Shipment information
- Inventory management
- Account visibility

myCargo

MYcargo 

Focus on core business functions by engaging with a comprehensive Third Party Logistics Warehousing provider.

Outsourcing warehousing to Seabridge can significantly reduce overheads and streamline operations.

Seabridge provides a reliable, efficient and cost effective alternative to in-house options. Take advantage of the resources and knowledge of an established logistics provider whilst benefiting from flexibility with space, labour and transport based on inventory needs.

Operating several warehouse facilities across Australia, Seabridge ensures safe handling and storage for all short and long term warehousing needs.

- Racked bays
- Block stack areas
- Container handling equipment
- 24-hour security
- Pest Control
- Cross Docking
