

# Would you like a computer?

Do you find technology  
a little overwhelming?

## Would you like a helping hand?

it is easier than  
you think to:

step 1

- access the internet for news, weather, research and entertainment
- send letters and photos via email to friends and family all over the world
- pay bills without leaving the comfort of your own home

step 2

A computer system custom built to your needs at an affordable price  
We will have everything up and running as well as provide you with basic training on how to operate your new system

step 3

We will help you choose and set up an internet connection if you're interested in accessing the web (Optional)

plus

Lifetime Customer Support, online or phone  
- for all customers who purchase a computer system

Warranty on parts and labour for 12 months  
- for all our products and computer systems

All your questions answered with courtesy and patience

Why not give us a call?

No obligation quotes
