The Time Out Internet software provides fast and reliable wireless internet and is accessed by an as easy to use interface where you can manage your customers' Internet usage.

Wifi Hotspots made easy

Time Out Internet is our easy to use Internet Management System that allows you to manage customers on the Internet.

TIME OUT INTERNET

WARNING!

New data retention laws released August 22nd, 2012 stipulate if something inappropriate or illegal occurs on your Internet network, you can be prosecuted - you need data retention information to prove it wasn't you!

How are you going to do that? CONTACT US for more information on your legal requirements.

Wifi Hotspots keep your customers coming back... the perfect value added service for your business!

Stop paying for customers excessive internet use, take control and save money now by setting data and time limits quickly and efficiently with our internet management system.

WIFI

HOTSPOT

Easily manage your Internet with set and forget data and time limits

Set customers data and/or time limits and be confident they can only use the amount of data allocated or access the internet during the time allocated.

Customise the client log-in page to promote your business

Your customer login page can offer direct access to your website or a special offer... even sell the space with advertising to get a return on your investment.

Comply with new data retention legislation and protect your business

You are responsible for who uses your Internet if your offer it free or paid.

Control customers' access to inappropriate websites

Offer free or paid Internet – you choose how to manage Internet access

Pre-print vouchers for free or paid Internet access or set up the PayPal billing system so customers can purchase their own Internet access 24/7

...the best controls for sharing your internet connection
