### Features & Benefits

#### Point of Sale made easy!

Retail Point of Sale is a computerised cash register designed with the tools you need to ensure sales are processed quickly, giving your staff more time to spend with your customers.

#### Stock Management & Stock Reminder

Simply Touch takes stock of your entire business. You can organise inventory by branch, look-up stock in other stores, in real time. It even allows you set up stock level warnings and create automatic purchase orders to replenish any low quantities.

#### Sales/Stock and Till Reports

Simply Touch offers .PDF reporting that gives you full visibility over what's happening in your business. From stock levels and sales to GST and profits, you can drill down to the details with a few clicks of you mouse. Great for you – even better for your accountant.

#### Take your POS with you, anywhere!

Managing a growing retail business means that you're not physically at all the stores, all the time. This is where our web-based POS comes in handy. All you need is a web-based phone & your personal security access codes. Works great with an iPhone and/or iPad!
