

"Safely Reaching New Heights"

Melbourne Travel Towers:

Whether you call it a cherry picker, elevated work platform or travel tower, Melbourne Travel Towers is available for all your elevated work requirements.

Melbourne Travel Towers take pride in offering a safe, personal, reliable and punctual service to all of our clients. Our experienced staff will liaise with you every step of the way to ensure a successful outcome for your business.

We are available for hire 24 hours a day, 365 days a year. We can meet you onsite to carry out a free inspection and discuss any special needs prior to the commencement of your work. Please feel free to contact us to discuss all aspects of your working at height requirements.

MTT Provide Travel Towers for:

signage and advertising
professional photography
film production
telecommunication towers
roof repairs

light tower maintenance
building maintenance
local council works
multi storey cleaning
window cleaning/repairs

electricians/plumbers
power line maintenance
vegetation services
construction services
painting services

Safety/Maintenance/Insurance:

Melbourne Travel Towers place a strong emphasis on safety and national industry compliance. All staff have appropriate licensing, accreditations and insurance. Our travel towers are serviced to national industry standards and MTT is comprehensively insured with public liability to \$20 Million.

Equipment:

MTT can provide 23m, 32m, 44m and 47m travel towers complete with experienced operators for all your elevated work requirements at very competitive rates. We will travel to any location in Victoria:

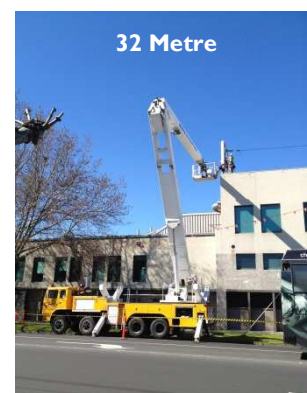

Our main travel towers include:

A 23 metre "knuckle boom" with 360° continuous slew and telescopic upper boom with a 250Kg load rated basket. The boom is insulated and is compliant for electrical work.

A 32 metre "knuckle boom" with 360° continuous slew and telescopic upper boom with a 400Kg load rated basket. The basket can also slew left and right to 45°.

Both units have back up auxiliary engines.
