

Glass & Glazing

Sliding glass windows & doors, shower screens and wardrobe doors

Our windows and doors are available with clear, tinted or obscure glass and can also be toughened or laminated. We even manufacture our own windows!

Shower screens can be framed, semi-frameless or frameless, with clear or obscure glass.

Awnings

Need Exterior Protection? We can supply and install a range of fabric and aluminium awnings.

Fabric—Such as the automatic roll up or the folding arm can give you privacy as well as protection from the elements. Fabric awnings can also give a burst of colour to your exterior through a wide range of fabric choices.

Aluminium—Such as the Fitalite or Kool 'D' Sun, give you sturdy protection against the elements whilst still giving you some privacy. Whilst not as vibrant as the fabric awnings they can still give your exterior that bit of extra flare.

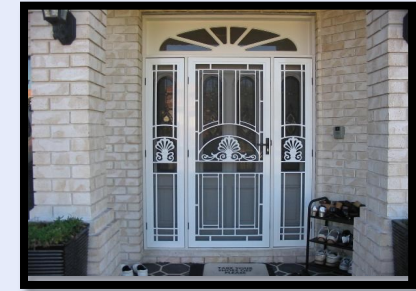

Window & Door Furnishings

With blinds having the ability to make or break a room, it's important to choose the right furnishings for your doors and windows. Luckily, we have a wide selection of blinds and fabric choices.

Your choices are: Panel Glides, Roller Blinds, Roman Blinds, Shutters, Vertical Drapes, Venetians (Timber, Timber-look and aluminium), as well as dual roller blinds.

We can cater to your taste and budget with many block out and translucent (both options included with dual roller) and screen fabrics, to either brighten or soften the room.

Security Screens and Doors

Security is important for peace of mind and to keep your loved ones safe. We manufacture our own security screens and doors (hinged or sliding) with several colours of frame and grille for you to choose from to match your home's colour scheme. We are also a supplier for Prowler Proof, which is an optimum security screen and door system which doesn't use grille. Your view is not obscured and unwanted guests are not able to break through.

If you are looking for a more designer approach, we are also suppliers for Hardcore and Colonial Castings doors. We also offer to remesh your screens and doors with a variety of meshes, ranging from fibreglass to Panthertuff, which pets and vermin are not able to break through.
