# Vinyl Plank

SERLAMINATE includes in its self vinyl and natural hardness. Its design which is under a strong protecting layer has been prepared by being inspired from natural tree view. To give the impression of natural wood, its skin layer is made specially.

**Serlaminated**

SERLAMINATE is impossible to discriminate it from wood based products when it has been applied to the floor. There are lots of advantages of SERLAMINATE according to other lamination floorings.

**Economical and Water Resistant**

Why you have to pay doubled to have wood seem at your floor? Now it is much cheaper to make your house or Office floor look beautiful. Serlaminat is more affordable by %50 than laminated. SERLAMINATE, is vinyl based product so it cannot be affected form water as easy like wooden based products. Middle layer of laminated parquet is made of sawdust and chemical adhesive so it is durable across the water as much as a fiberboard and a boar based products. This same layer of SERLAMINAT is made of vinyl and natural hardening layer so SERLAMINATE's resistant to water is more than laminated parquet and it is impossible to see swelling, fading of SERLAMINAT, You can use SERLAMINAT aslo in your bathroom with contentmen.

**Silent and Durable**

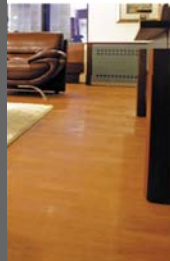

The other specialty of SERLAMINATE is being silent product. When you walk on it you can not hear the noise that happens while you walk on laminated parquet. Laminat flooring is sensitive product because its protecting layer is 40 micron and this layer of SERLAMINAT is 250 micron.

**Easy to Install and easy to clean**

Think that, you have covered your living room with laminate flooring, in time, lets say one or two pieces of it damaged as it can not to be repaired. In this situation you must change the flooring of your entire living room. But if you have covered your floor of your living room with SERLAMINATE, it would be very easy to change just the piece which is damaged. Installing SERLAMINATE on the floor is very easy, you can do it by yourself easily.

SERLAMINATE is impossible to discriminate it from wood based products when it has been applied to the floor. There are lots of advantages of SERLAMINATE according to other lamination floorings.
