

24/7 EMERGENCY SERVICE

“The Total Solution for all your entrance requirements”

# When was the last time your door was serviced?

Just like your car, regular servicing of your Roller Shutter/Door will increase its life span and reduce overall costs.

The Benefits Of Regular Service & Maintenance:

- Minimize costly & inconvenient breakdowns, that impact on business activities & compromise security
- Safer working conditions for all building occupants
- Identification of worn parts before serious & costly problems occur
- Improved door operation
- Reduced maintenance costs

24/7 EMERGENCY SERVICE

# The risks of not maintaining your door

This door had never been serviced, therefore allowing the metal slats to cut through the main support bracket posing a serious OH&S risk.

Result: The entire roller shutter had to be replaced

If this door had been serviced: The slats would have been realigned & grease applied, reducing any wear on the brackets

This door had caught on a damaged slat, therefore causing the curtain to catch & dislodge from the guides.

Result: 15 slats had to be replaced and the door was left shut for 5 working days until the new slats were manufactured, powder coated and installed

If this door had been serviced: The slats could have been replaced and the door would have continued it's normal operation

## Other Risks Of Not Maintaining Your Door

- Failure to comply with OH&S Act 1985
- Increase incidence & severity of BREAKDOWNS
- Management time wasted reacting to preventable situations
- Staff or customer injury
