

WINTER POOL TIPS

You do the swimming. We do the rest!

It is important to keep up with your pool maintenance in the wintertime, for the overall preservation of your pool. If your pool doesn't get cleaned for months on end, you can be faced with an unhealthy mess at the beginning of summer, and spend an unnecessary amount of time and money restoring your pool to its sparkling best.

It only takes a little regular maintenance to help your pool stay clean all winter long – try these simple tips to save you time, money and protect your backyard oasis.

When in doubt, contact us for help in maintaining your pool during the winter season. We can organize a regular pool maintenance schedule and professional check-up periodically, to suit both your expectations and budget level!

- ☑ Balance your pool water correctly
- ☑ Check your pool chemistry regularly
- ☑ Check your pool pump, filter and skimmer box periodically
- ☑ Check your pool lighting
- ☑ Clean the waterline tiles
- ☑ Trim the plants
- ☑ Add a Pool Cover
