

## Our Process

### Set-up

Items are placed in the center of the room and covered with plastic sheeting. All floors are protected with drop clothes.

### Prepare

Based on your requests, holes and cracks in ceilings and walls are filled; and surfaces are sanded.

### Paint

Repaired areas are primed & premium quality paint is applied to a uniform finish.

### Clean

Furniture & accessories are moved back to their desired locations. Floors & carpets are vacuumed and swept. All our materials are removed.

### Inspect

After our own inspection, your input is welcome.
