

Services

Jim's Computer Services provides a full range of computer solutions for business owners, home office workers and home computer users.

Jim's computer technicians can repair your computer promptly to let you get back to work. We cover all **metropolitan** and **country areas** around Australia.

Computer Repairs

Are you tired of unplugging your PC and taking it to a repair shop every time you have a problem, and then having to wait up to a week to get it back? We come to you and solve your computer headaches.

We offer a same day repair service in most areas.

Virus & Spyware Removal

Is your computer acting strangely? Are programs slow to open? Strange error messages popping up everywhere? These are some of the symptoms of a virus or spyware. Jim's Computer Services provides onsite virus removal and can also give you advice on Anti-virus software.

Computer Upgrades

Is your PC slow to start up, or complaining about the lack of space on your hard drive? Now could be a good time to upgrade some components. Or how about an upgrade to Windows 7?

Internet Security

As the internet grows so has the number of security and virus threats. Prevention is better than cure and a good security package will keep intruders from sneaking into your computer and accessing your personal information.

Data Recovery

Jim's Computer Services can help you to backup your photos, music and videos and other data safely. We also offer a data-recovery services that can recover lost files after a hardware crash, software problem or virus.

Computer Tune-up

Just like your car, a PC needs a tune-up every now and then. Our tune-up will make it run faster, smoother and remove all those annoyances like programs freezing or not even starting up. If you feel like your computer is not performing then this could be the solution for you.

Broadband and home networking setup

We can help you set up your broadband and your wireless network. If you have more than one computer in your home we can make them work together. They can use the same internet connection and let you share your music, photos and videos to whatever PC you are at. Book a job online or call us on **1300 261 381**
