

EVERYTHING RUBBER & SYNTHETIC TURF visit ...

SOFTFALLGUYS.COM

WA's #1 Softfall Professionals ... and for all rubber & softfall products! We design, sell, supply, install, recoat, rejuvenate and repair playground softfall rubber surfaces.

Playgrounds - Councils & Shires - Communities - Home & Pool Areas - Resorts - Child & Aged Care Facilities - Mining Golf Courses - Walkways - Verges - Sand to Softfall Conversions - Waterparks - Softfall Surface Rejuvenation

We service all the above with affordable supply and installation of the latest generation longer lasting softfall rubber, wetpour, rubber mats and synthetic turf systems.

As one of the industry softfall repair leaders we schedule the low cost maintenance and repair of softfall rubber surfaces so old surfaces are not only back to looking great but legal and constantly safe for visitors and kids.

SAVE . . . Repair, Resurface, Renovate and Maintain!

When a softfall surface gets old, discoloured, affected by dust, sand, hard water and worn there are options available to you before investing in a new softfall surface.

REPAIR: Holes and tears happen all the time leaving surfaces looking not only tatty but extremely unsafe for kids and visitors.... ones reputation and legal liability is always on the line.

RESURFACE: If a surface and its base is sound and complies we can resurface your existing rubber eliminating the high cost of pulling up an entire existing surface and redoing it all over again.

REJUVENATE: Give life back to that old softfall rubber playground surface by applying our clear or coloured Surface Rejuvenator.

MAINTENANCE: Don't have time to undertake softfall maintenance? We visit site and provide you a FREE condition report and design maintenance programs to meet your plan and budget.

Ask us for a FREE Softfall Condition, Repair or Surface Rejuvenation Report!
