## Private Consultation and Training

Our private training is tailored to suit your needs and those of your dog. Training sessions are held at your home, local parks or at a pre-arranged location. We start with an initial session which takes approximately 90 to 120 minutes to assess your needs and get you started. We then follow-up with either 30 or 60 minute sessions for as long as necessary.

At the end of each session, your instructor will send you a training and management plan to work on during the week/s and a training diary so you can record your progress between sessions.

For more complex behavioural issues or training, the common length of time is approximately 5 sessions so we have a private training package which includes an initial consultation of 120 minutes & four follow-up sessions of 60 minutes.

Costs are detailed below and are based on training of one dog or puppy per session:
