- 💧 Environmentally friendly, no detergents or chemicals are used.
- 💧 Easily reaches windows over lawns and flower beds
- 💧 No detergent residue means that windows stay cleaner for longer.
- 💧 Cleans frames at same time as glass.
- 💧 Heated Pure water consumes algae on cladding.
- 💧 Reduces disturbance and maintains privacy.
- 💧 Proven in the market place, used by the UK's leading commercial Window Cleaning Companies and recognised to be the future of window cleaning; on both sides of the contract.

💧 HOW DOES IT WORK? 💧

Glass and Carbon Fibre waterfed poles telescope up to 65ft and deliver Heated Pure Water to the brush head atop the pole.

Pure Water possesses a strong urge to return to its former impure state, absorbing dirt left behind by the elements.

When ultra Pure Water is heated it cleans in an amazing way and dries to an incredible finish!

Heating and treatment units in the Thermo Pure system can produce up to 1,000 litres of Heated Pure Water. Operators can then breeze through initial cleans and shift through even the most stubborn residues.

💧 WHAT ARE THE BENEFITS FOR YOUR BUSINESS? 💧

The reasons for organisations choosing to have their premises cleaned by the Reach & Wash Thermo Pure System are threefold:

💧 Better Cleaning Results

The Heated Pure Water from the Thermo Pure System produces the most excellent results. Drying more quickly to a spotless and streak free finish. No detergent means no sticky post clean residues, therefore windows stay cleaner... longer!

💧 Simply The Safest Way

The Health and Safety in the work place is of paramount importance.

Light-weight pole conforms with HSL recommendations

Ladders and high access equipment can be eliminated, reducing costs whilst ensuring safety. Enjoy the assurance that comes from knowing that some accidents simply can't happen!

💧 Environmentally Sound

No detergents and chemicals helps your business to operate freely and in compliance with EU regulations. Organisations whose practices are environmentally sound are prospered by such legislation.
