Experience

I have worked as a plasterer for just under 13 years doing all aspects of plastering, I started my apprenticeship working on houses and then later moved into commercial plastering. My experience includes:

- Assembly and layouts of steel stud frames and partition walls
- Exposed and concealed ceiling grids
- Fire rating
- Hanging, stopping, corncing and sanding
- Redesign and build to fit certain onsite situations
- Simple timber carpentry, building stand up timber frames
- Trowel boxes

Education and Training

I completed year 10 in 2002, I started an apprenticeship in certificate 3 in fibrous wall and ceilings at the end of 2002 and which I completed on January 4th 2006. In the last 5 years I have also completed courses in:

- Building industry Red card
- Scaffold ticket
- E.w.p ticket (Elevated work platform)
- First Aid certificate and yearly refresher courses
- Traffic management

About me

I have worked as a plasterer for 13 years I take a lot of pride in my work and love what I do, I'm super critical of my work and the people I work with, I believe that the work we do should be 100%, if it's not, it's not just a bad reflection on them or myself but the company as a whole, I have a keen eye for detail and have no problems coming up for solutions for onsite problems, I'm easy to get along with, I have generally worked 6 days a week for the last 5 years. I considered myself more of a leader than a follower and try to lead by example but also have no problems taking orders, I may be shy and reserved at first but am usually outgoing and funny, I was a leading hand at ideal contracting at the age 22
