BASKETBALL SIZING

THINGS TO CONSIDER

It is a good idea to consider the teams you might be playing against when thinking of what colour to make your new uniforms. This will minimize any clashes you may have with teams that are the same colour as your own.

When choosing your numbers, most associations will only allow the following numbers:
4-15, 20-25, 30-35, 40-45, 50-55.
