

West End Electrical & Solar

EC7236

*The rapid response electricians
and solar panel specialists*

The chosen rapid response electricians for all residential electrical work

Installations and repairs

Our team of electricians has over 20 years' experience. Call us to arrange for all your electrical repairs and installations. We visit promptly and if we can fix it immediately we will, or if we need time we will discuss the schedule with you.

Solar panels

Ask us to visit your premises to select the most economical and suitable solar panel for you. We will analyse your current gas and electrical power bills then compare the costs with what you will save by using solar power.

Fully accredited by the Clean Energy Council for the installation of solar panels to meet Australian Standards and legislative requirements.

Email us at westend@westnet.com.au for a rapid response.
