WEDDINGS & EVENTS PLANNED TO PERFECTION

Month of Coordination *

You've done a great job organising your wedding and now you'd like to sit back, relax and enjoy the lead up to your special day, knowing that you can enjoy your wedding with friends and family as stress-free as possible. This package is designed for the bride and groom who want full responsibility for planning their wedding, but would like to hand it over to a professional before their big day, to ensure everything runs seamlessly.

When you choose the Month of Coordination package, I will meet with you 4-6 weeks before your wedding date to go over all the details you have put in place, so we can execute your vision flawlessly. Together we'll create a detailed timeline and do a walkthrough of your venues so I know what you envisage for your big day. I will manage the set-up of all elements of your day and work with your selected vendors to create the most amazing day possible. A ceremony rehearsal and coordination of the ceremony is also included.

**This is not a planning service - it is coordination only. Planning hours can be purchased to add to this package.*

Partial Planning

Partial planning is perfect for couples who have already started planning and organised some of their major suppliers, but not sure what to do next and need help organising the rest of their wedding and with tying all their ideas together. Partial planning lets you decide which services you would like me to handle from the beginning. From designing a wedding concept to vendor matching, I can take care of as much or as little of the planning as you need. Examples of elements you may wish me to take care of include venues, rentals, catering, florals, entertainment, photography, hair and make-up, transportation and much more.

This package also includes everything in the month of coordination package.

Full Service Planning

This package has been created for the bride and groom who want to enjoy every moment of this exciting time, coupled with the knowledge that a professional planner is seamlessly arranging all the minute details of the event from the Save the Dates to the Bride and Groom's departure.

On average a wedding can take 250 hours to organise – do you have the time to do it alone? We'll walk you through the entire wedding planning process from start to finish – starting with your vision and desires for your big day, your budget, your vendors and your perfect venue ... you name it, we'll discuss it! You will be guided through wedding etiquette, design concepts, themes, traditions, supplier selection, venue selection, budget planning and much more. Every detail is given the same personal attention as if it were our own. We will provide you with professional advice and recommendations; however the final decisions will be up to you, leaving you ultimately still in control of your wedding.

This package also includes everything in the month of coordination package.
