

Write a Song!

with Fox Trax

For a limited time you will receive
EVERYTHING listed below for only...

\$499

How Does It Work?

Here is a quick overview of what happens when you write a song at Fox Trax...

1. Pre Production

Pre-Production ensures that the producer and the artist share an understanding about the stylistic direction of your music. It involves engaging with a variety of reference tracks.

2. Produce

At this point armed with the knowledge gained from pre-production, a personalised instrumental bed will be written for you! This is where the song is pushed in the direction of the previously discussed reference tracks.

3. Record

Next we record a quality version of all the live elements of your track. This stage will vary depending on whether you sing or play an instrument and the stylistic direction of the project.

4. Mix

A mix will be provided as a part of the Package! With this special you really are getting the full service!

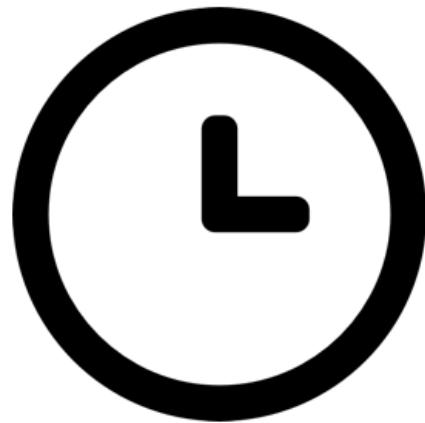

5. The Ultimate Package

This Package will give you everything you need to bring your songs to life and ready for release!

What Do You Get?

All together you get a whopping
12 hours spent on your track
with an experienced
engineer and producer.

4 hours of Beat Production
3 x 2 hours of One on One Sessions
2 hours of Mixing Final Track

For a short time only
you can get all of this for just \$499!

This includes the hiring of an experienced engineer/producer and room hire! There are limited spaces for this deal available so if you are interested please click the link below to book.
