

Why have a professional clean my gutters?

The most obvious reason is because it can be a very unsafe for the inexperienced and unprepared householder. Our gutter cleaners have years of experience working at heights and using harnesses. We also carry powerful blowers and other specialised equipment to make the job safer and more efficient. This is not to mention that having clear gutters helps reduce the risk of fire, extends the lifespan of the gutters and makes the place look tidy.

Can you inspect the roof and gutters while you are up there?

Yes we can. We can let you know if there are any broken tiles, bad joints or any other obvious causes for problems. We can also let you know what state your gutters are in and take photos to show you.
