

# YOUR RIDE WILL NEVER BE THE SAME...

NEW PRODUCT

\*Honda Red FMT shown  
(Other motorcycle brand colours available including Jet Black)

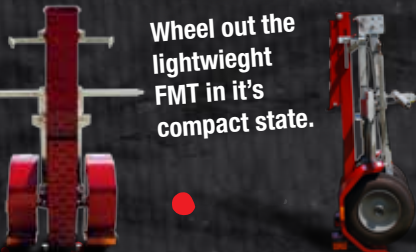

## THE EVOLUTION OF THE TRAILER

FMT™ is an exciting unique new product never seen before by the motorcycle industry.

Designed to make motorcycle transportation simple and efficient, the FMT™ makes the loading of a motorcycle a breeze with a unique brake back system that allows the motorcycle to roll on and off easily.

### STEP 1

Wheel out the lightweight FMT in it's compact state.

### STEP 2

Unfold the FMT in one easy motion.

### STEP 3

Attach to vehicle and unfold ramps.

### STEP 4

Strap the bike on... ... and go riding.

FOLDING MOTORCYCLE TRAILERS

# INTRODUCING THE NEW FMT

NEW PRODUCT

Towing the FMT™ is worry free, with a robust design allowing for on and off road towing. Safety rated to 100km/h.

Recognising the limitation of existing trailers this product is ideal for anyone with limited storage space, travels large distances towing a motorcycle or even motorcycle clubs that have parking issues. When not in use, the highly innovative FMT™ is simply folded up in less than 60 seconds and because of its compact and light weight design it can be single handedly and easily maneuvered through door ways to be stored in a cupboard or a space less than three quarters of a meter squared.

The unique tie down method eliminates the need for seal savers on your forks and any damage occurring from front suspension compression.

The FMT™ standard colour is Jet black however, it can come in a range of colours to suit any brand of motorcycle or preference (Honda Red FMT shown).

## SPECIFICATIONS

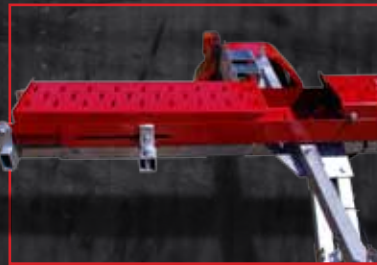

- The FMT™ has been extensively tested and engineered to meet the strict Australian road safety standards.
- It has been extensively road tested in all conditions, on and off road and rated to a maximum continuous speed of 100km/h.
- Maximum load of 290kg with a GTM (gross total mass) of 350kg.
- The unit weighs 60 kg and is broken into 25kg and 35kg for even easier handling and car boot storage.
- All fixtures are stainless steel 304 and all frame-work is galvanized to ensure long durability.
- Dimensions: 1390mm high, 557mm wide, 448mm deep.

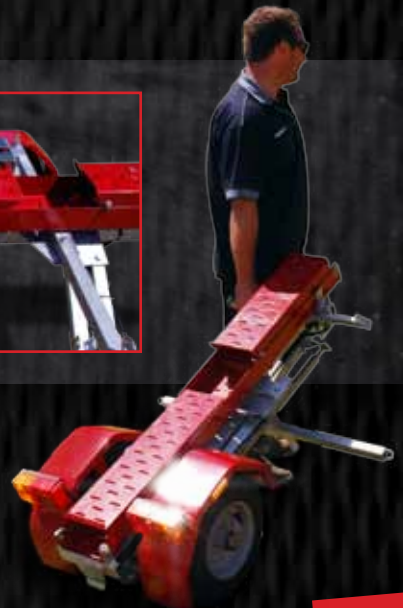

- Lightweight design with stainless steel 304 fixtures.

- Adjustable length sliders for every size of bike.

- Fold out ramps

## WHY USE THE FMT?

- The FMT is heavy duty and will suit most bikes.
- The FMT has a brake back draw bar for easy loading.
- Looks neat and tidy – can be hung up on a garage wall out of the way.
- Fold up the FMT and store in the boot of a car.
- Can be stored in a broom cupboard or neatly in the garage to give you more much needed space.
- Avoid damage to your ute and riding gear by using the FMT.
- It has convenient tie down points to secure the bike and eliminate fork seal damage.
- No longer need your old bulky, rusty box trailer. The FMT can double as both with the box accessory.

## ACCESSORIES

- Fold away box for domestic jobs and extra luggage when travelling.
- Additional tracks for 2 motorcycles and ATV's.
- FMT safety straps to secure the bike to the trailer.
