

Remodel Without Replacing

With Kott Koatings® Reglazing Process!

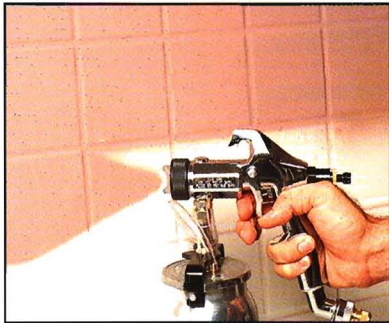

Before . . .

When it comes to worn looking or outdated kitchen or bathroom fixtures, you really only have three choices: 1) Live with the hard to clean, ugly surface; 2) Replace the bath or kitchen surface; or 3) Have the surface renewed or re-colored with Kott Koatings' exclusive refinishing process, without removal, right on location.

Our Exclusive Process . . .

Our exclusive process is performed right in your home. No fixtures are removed! That's right, and all work is performed in one day. Your fixtures are ready to use in just a matter of hours – not days or weeks. Wondering about cost? It's a fraction of what it would take to replace and a much better value than the tearing the fixture out.

After . . .

Results are fast and dramatic with the exclusive and non-toxic Kott Koatings K-40 Glazes. We offer a wide spectrum of colors to choose from and can even help match the coating to the color scheme in your kitchen and bath. Best of all, our guarantee assures you years of lasting beauty.

Kott Koatings, Inc. is the largest bathroom and kitchen refinishing company in the world. The Kott Koatings reglazing Process

was developed by Mr. John T. Kott nearly 50 years ago. This exclusive process can only be provided by Authorized, Factory Trained Dealers.

The special Kott K-40™ Glaze is also designed for the highest in quality, safety and durability.
