

Aloe Concentrate / Drink

A refreshing Aloe Vera beverage that helps soothe the digestive system and assists with the natural self-cleansing action of the body.

Made from premium-quality Aloe Vera, Herbal Aloe is loaded with important enzymes, vitamins, minerals and amino acids. Includes added benefits of the extraordinarily versatile Chamomile plant. Chamomile, known for its gentle and soothing qualities.

Stress, coffee, cigarette smoke and poor eating habits can upset the stomach and impair digestion. Herbal Aloe brings relief. Herbal Aloe combines the goodness of aloe with a delicious citrus twist for a healthy digestive system.

- Supports internal cleansing and digestive health.
- Soothes the digestive system.
- Made from premium-quality Aloe Vera, this delicious-tasting, healthy beverage is easy to make.
- Is a good source of Calcium and Magnesium, and is a source of Vitamin A.
- Completely free of Aloin, a bitter substance found in the Aloe Vera plant.

The Results Speak for Themselves!!

Constipation & Bloating Stomach

"All of my life I have suffered with constipation and a bloated stomach. I thought this was normal. I started using Aloe and within 5 days my constipation was relieved totally and funnily enough so was the bloating in my stomach. I love this product. Thank you Herbalife." *Julie Waugh, NSW, Australia*

Indigestion & Gall Stones

"Before taking Aloe Concentrate I suffered badly from constant indigestion and gall stones. I take my other Herbalife tablets with Aloe 3 times every day, as well as drinking throughout the day, and haven't suffered from indigestion or gall stones for over 18 months now." *Sharyn Sires, Australia*

Ulcer

"I had suffered with an ulcer and in just 4 days from using Aloe Concentrate I could stop taking my medication! Now I don't have any stomach aches anymore, I can eat anything I want and I feel great!" *Maartje Jonkers, QLD, Australia*

Indigestion

"Indigestion runs in my family. I can always remember the Eno's or Andrews Antacids my father kept in abundance in the kitchen cupboard. I grew up to the same with indigestion that used to leave me lying on the floor for relief. Sometimes we thought there was something else wrong with me and went to the doctors numerous times over the years. Since starting on Aloe Concentrate I have not had indigestion since. I never knew there was a better way to feel than I did back then, thanks Herbalife." *Andrew Singleton, VIC, Australia*

Crohn's Disease

"I had suffered with Crohn's Disease for many years, but after starting on the Herbalife program; including Aloe Concentrate I had a dramatic decline in all my symptoms. Now I don't get that swollen, bloated stomach and painful bowel movements, which was once a daily complaint for me. The best part is I'm medication free and I'm finally feeling normal again!" *Christine Edis, VIC, Australia*

Eczema

"My six year old son has suffered from eczema for most of his life. I have tried all sorts of medication and nothing seemed to move it. I have had him on the Aloe drink for a month and a half. Within three weeks of taking it, his legs were free of eczema. We are extremely happy with the results." *Karen Steele, SA, Australia*

Flu & Food Poisoning

"Since starting on Herbalife 2 years ago I have never been sick, not even the Flu I usually got twice a year. I recently had a bout of food poisoning and woke in the night with the typical symptoms and shortly, the resulting convulsions that don't usually stop for many hours, even a day (it's the worst feeling). I tried the Aloe, drinking 4 capfuls in only 100mls. I did not wake til morning. WOW, I couldn't believe it. In the past food poisoning had continued all night and the next day. I am absolutely amazed at how quickly the Aloe calmed my stomach. I will never forget it, it's permanently in the fridge." *Andrew Clerihew, NSW, Australia*

Morning Sickness

"I found that the Aloe Concentrate drink did wonders for my morning sickness in the first months of pregnancy. I had really bad morning sickness and feared I would end up on a drip in hospital (as in previous pregnancies because I couldn't hold down water) when aloe was suggested I was sceptical – but it worked." *Natasha Fletcher, QLD, Australia*
