

NIDHIX

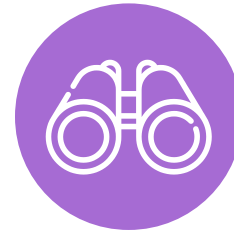

ASSET MANAGEMENT SOLUTIONS

Simple, Innovative & Quality Service

Our Mission

We collaborate with other organizations and professional bodies. We put data to work to enable autonomous, connected ecosystems that boost efficiency, productivity, and quality for our clients' assets.

Our Vision

Our aim is to be the best-in-class Asset Management service provider in Resource sector by building long-term relationships with our clients in simple, flexible, and creative ways.

Safety First

We stop and think, then act to prevent injury. Zero harm to People, Environment and Communities is our goal.

Collaboration

Productive and ethical working relationships, transparent and responsive dialogue with our clients and contracting agencies for the benefit of all stakeholders.

Delivering Outstanding Results

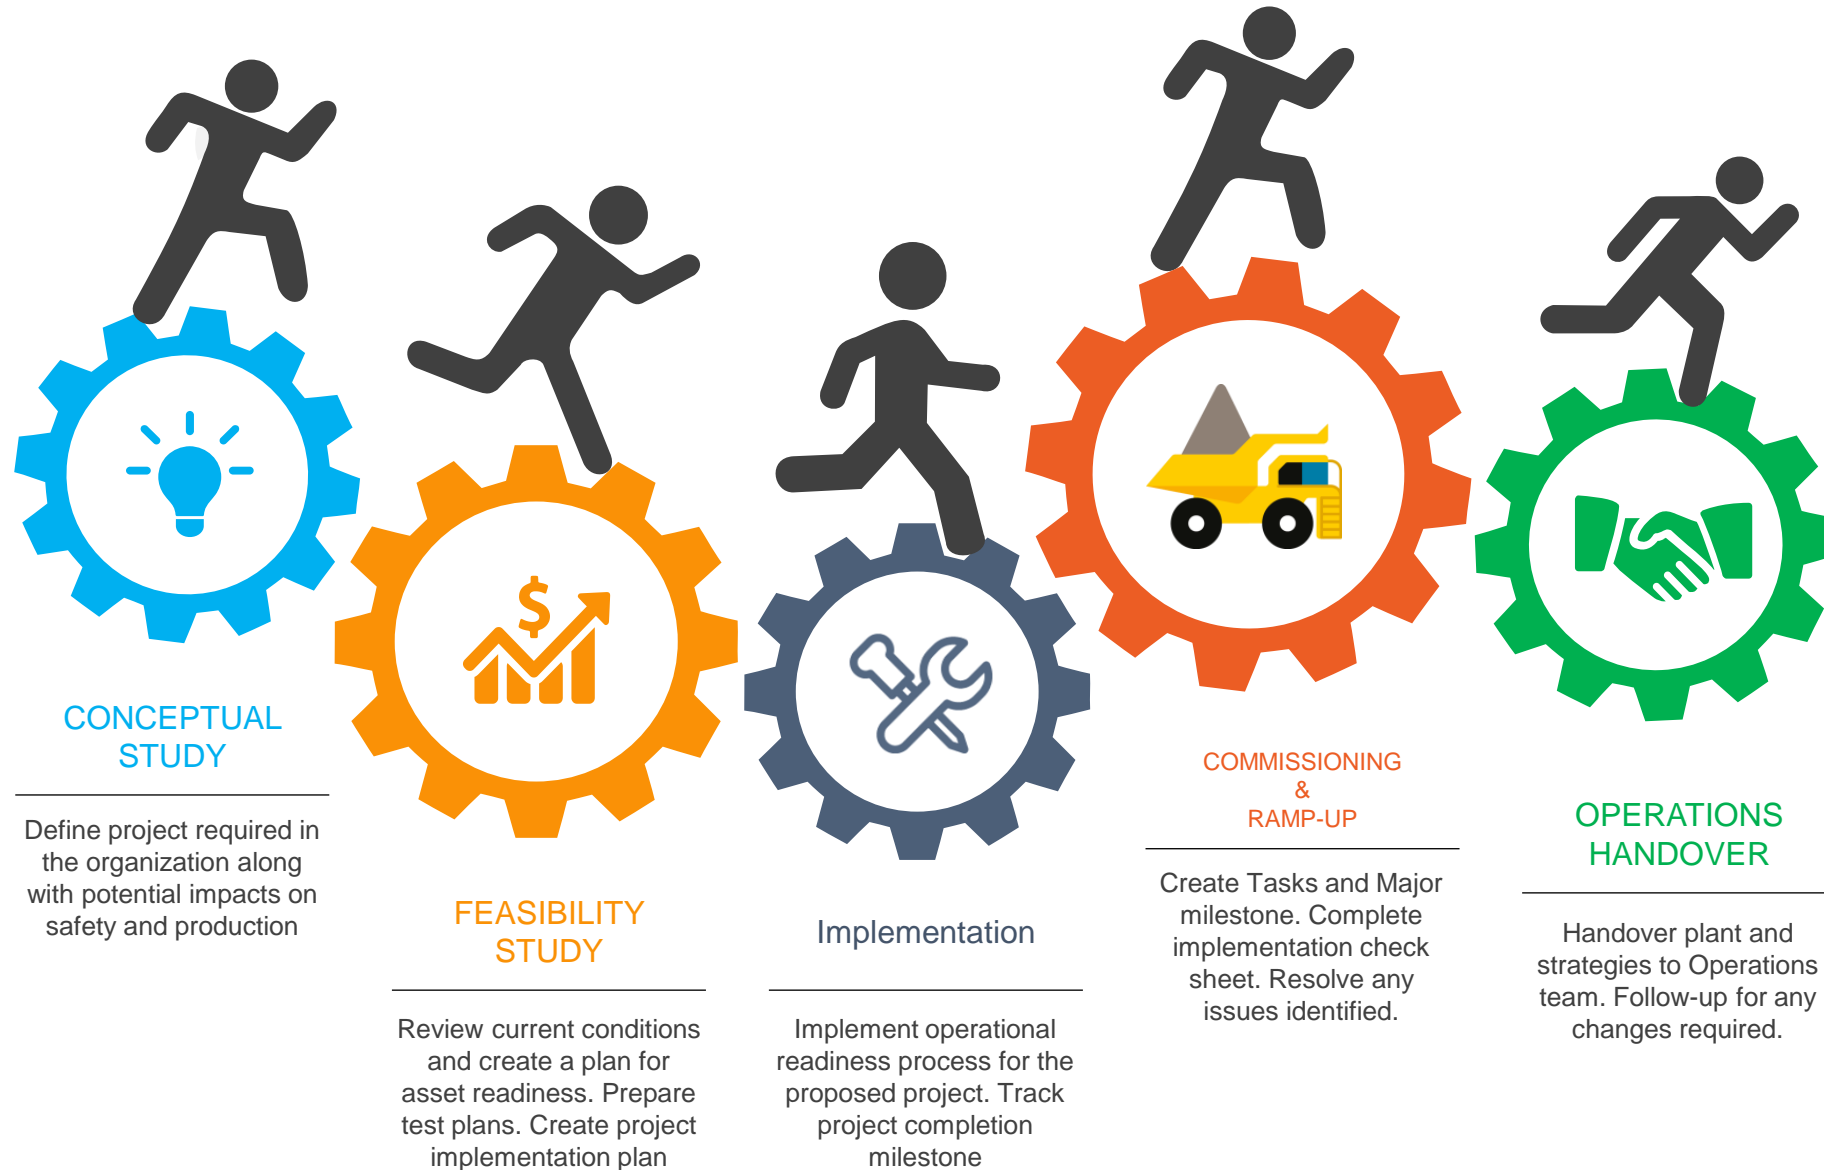

We value sustainable profitability, performance over procedure, setting measurable goals and working collectively to achieve production targets on time.

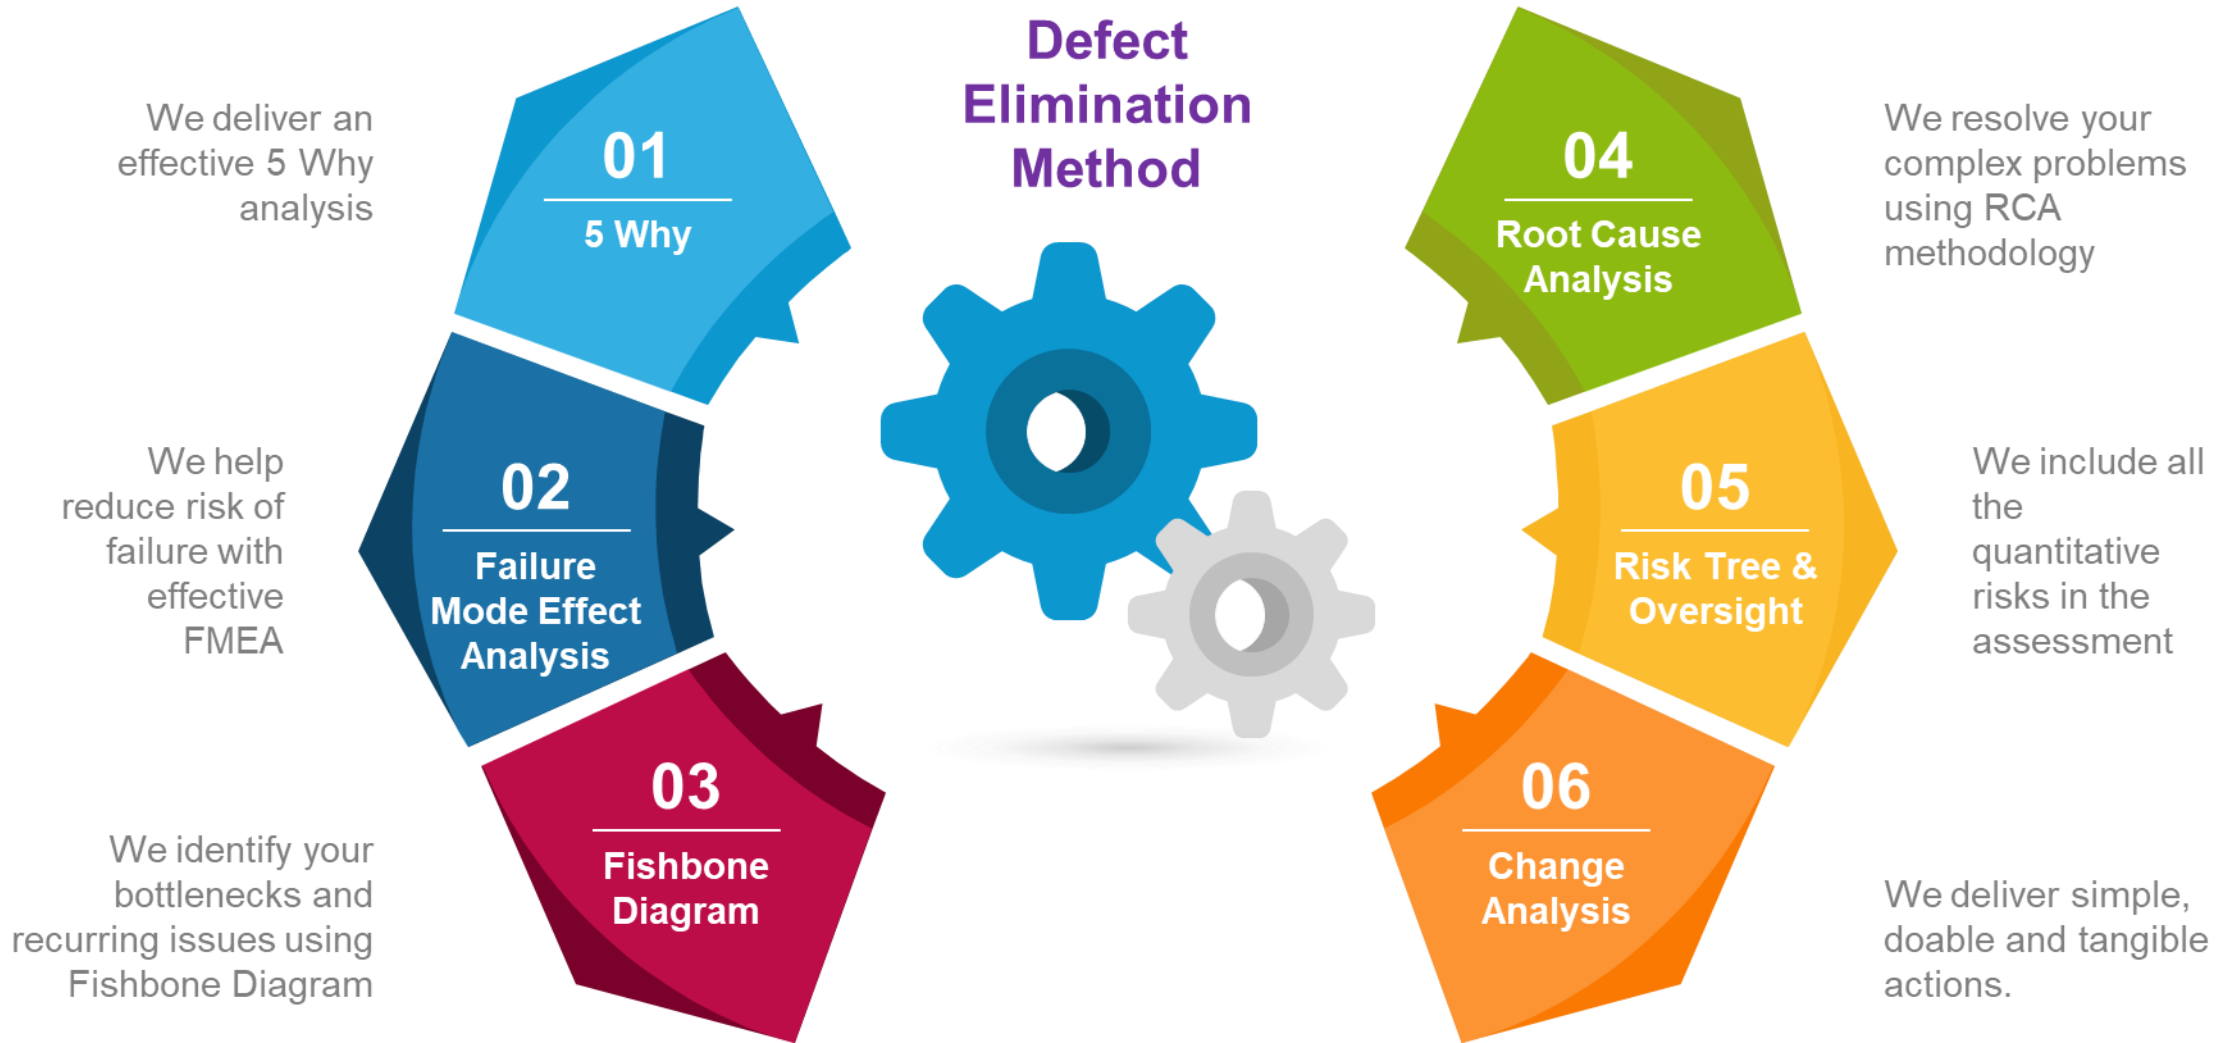

Curiosity at Nidhix

We know our customers' success is paramount to our own, and we are dedicated to maintaining efficiency, productivity, and quality for everyone we serve.
