“The planting Ecoplant Australia has done has transformed the whole golf course”  
THE AUSTRALIA GOLF CLUB | PHIL BEAL

# About us

## VISION

Our vision is to be the benchmark in landscape installations and sub contracting services in the Infrastructure and Construction industry sector.

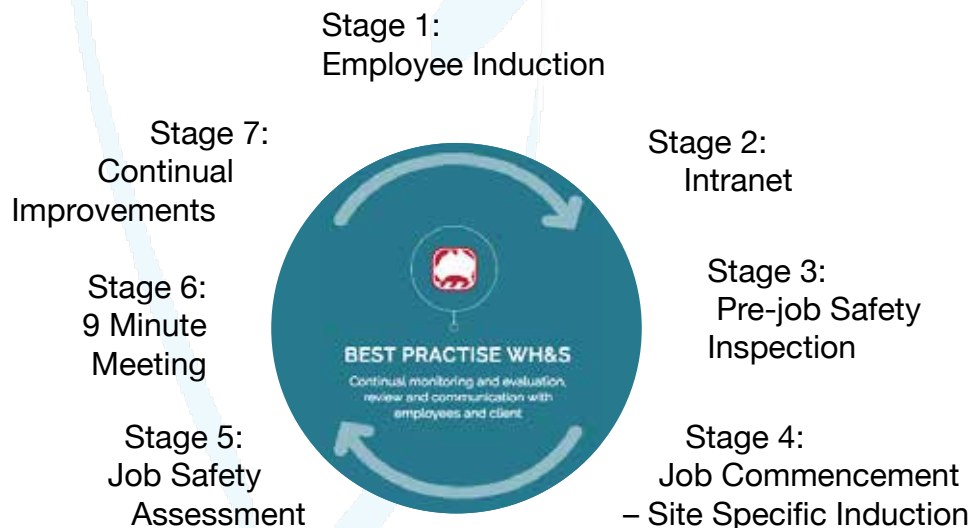

## MISSION

Our mission is to continue to grow as experienced professionals with a strong infrastructure of support to achieve benchmark standards across all areas of engagement for our clients and employees.

## 14 POINTS OF CULTURE

- |   |               |    |             |
|---|---------------|----|-------------|
| 1 | Commitment    | 8  | Team Work   |
| 2 | Ownership     | 9  | Balance     |
| 3 | Integrity     | 10 | Fun         |
| 4 | Excellence    | 11 | Systems     |
| 5 | Communication | 12 | Consistency |
| 6 | Success       | 13 | Gratitude   |
| 7 | Education     | 14 | Abundance   |

## SAFETY FRAMEWORK

## 2015 - 2020 STRATEGIC PLAN

By 2020 we will:

- 1.) Invest in resources and systems to ensure the continued growth and expansion of our company whilst delivering the optimum customer experience and surpassing industry standards.
- 2.) Intensify our commitment to excellence and becoming the benchmark in all areas of delivery across our company.
- 3.) Build a culture of accountability and achievement across our company.

“Cost effective, hassle free planting.” **PENFOLD PROJECTS | JACK BATH**

# Let us help you

## MEET YOUR DEADLINES GAINSBOROUGH GREENS

Challenges: Minimal Environmental Impact | Wetland Area

360,000 Plants in two months.  
Speed spades were used enabling increased productivity of, on average, 2000 tubes per planter.

## BROAD CAPABILITIES LEPPINGTON RAIL CORRIDOR

Challenges: Quantity | Scope | Regulations

1.2 Million plants in 12 months.  
A committed and experienced RISI Certified team helped the client finish 12 months early.

## CONFIDENCE ON COMPLETION BARANGAROO

Challenges: High Profile | Quality

75,000 plants, from tubestock to 400 litre trees in 1.5 months.  
The project was assigned a dedicated team and team leader ensuring our clients hand over was successful.

## SAFETY IS PARAMOUNT DARLING HARBOUR

Challenges: Stringent Safety | Working at Heights Required

100,000 pots and tubes in 3 months.  
Installed by a meticulous planting team all with Working at Heights Certification.

“Quicker responses to quote requests, quicker responses to last minute bookings, and overall efficiency.” **STONEWILL PTY LTD | JUSTIN MURPHY**

# Capabilities

Our technical capacity permits us to undertake projects of any size, planting into any garden medium. In a team of 5 planters, it is possible to achieve 10,000 plants per day, in the right soil conditions, with a limitless capacity for larger jobs. We get the job done and ensure client satisfaction.

## SUPPLIERS OF QUALITY:

### Tubestock & Potted Plants

Native Grasses | Wetland Plants |  
Trees | Shrubs | Groundcovers

### Erosion Control Material

Jute Mat | Jute Soil Saver | Coir  
Matting | Bio Pin | U Pins

### Revegetation Material

Tree Guards | Jute Squares  
Weed Mat | Bamboo Stakes

### Landscape Material

Fertilisers | Soil Conditioners |  
Tree Stakes | Hessian Tie

## PROFESSIONAL INSTALLERS OF:

### Tubestock & Potted Plants

### Erosion Control Material

### Revegetation Material

### Landscape Material

“Consistency, good point of contact, responsive if there’s an issue, open to resolution.” **BUSHCARE SERVICES | PHIL HOSKING**

# What makes us unique

## AUGERS

Augers are capable of penetrating any soil conditions. Dry compacted site soil is tackled using our ripper bits. The bits ameliorate the soil allowing for successful plant establishment. We have developed jute matting bits with tungsten tips that can drill through soil without catching the jute matting. By continually developing our drill bits, we steadily improve our efficiency and quality.

10 POINT  
PLANTING  
GUARANTEE

## SPEED SPADES

This method has been tried and tested in the North American forestry industry, and offers a fast and cost effective approach to planting jobs with appropriate soil specifications. The spades are most useful in imported soil or ameliorated soil but can also be very effective in well hydrated soil conditions, such as wetlands and bio basins.

CONDITIONS  
COVERED

“ We have nothing but high praise for the professionalism of your new speed spade crew that worked at Gainsborough Greens on our very large wetland project. The quality of planting was first class, as was the speed at which the worked. ” **EVOLVE ENVIRONMENTAL SOLUTIONS | JOHN WHITE**

# 10 Point quality planting guarantee

## 1.) Reliable service

We guarantee that we will be reliable and you can count on us to turn up when we say we will.

## 2.) Honest and upfront prices

No hidden and upfront prices which means peace of mind for you.

## 3.) On time and ready

We can mobilise teams quickly for you. All utes are ready equipped with the latest in contract planting machinery to tackle any conditions.

## 4.) Open and honest communication

We will give our honest opinion and communicate with you regularly giving daily feedback on your project.

## 5.) Competitive pricing

Our dedicated estimating team will have a quick turn around on your quote request. We will provide the best possible rate to complete a quality and professional job.

## 6.) Clean and tidy

We will pack up the pots at the end of the day and leave the site clean and tidy.

## 7.) Safe and sound

Our teams will arrive with all the correct personal protective equipment. All employees go through a strict induction process and our company complies with all the latest WH&S legislation.

## 8.) Superior products

The products we supply will be of the best quality.

## 9.) Professional appearance

Our teams will arrive with a positive reflection on your company, in our uniforms, with clean and tidy utes

## 10.) Training and development

Our team will be trained in what they do, and they go through regular training and development.

“Ecoplant- Fast, flexible, reliable and attention to detail.” LANDSCAPE NEWCASTLE | ALEX BARNETT
