Select Shopfitters Australia ... making the most of your space

The interior of your business can be crucial to your customers' experience and your sales. So it pays to select the right fit for you.

Select Shopfitters Australia are market leaders in project management, design and shop fitting for retail and commercial spaces.

We began creating original, high impact interiors for independent stores and national chains alike almost 30 years ago. Methods, materials and our clients' needs may have changed over time, but our ability to produce today's best turnkey design, manufacture and installation solutions has kept us at the forefront of our industry.

Select Shopfitters is built on a proud family history and a foundation of partnership - with our people and our customers.

It's what inspires us to develop spaces that don't just look sensational ... they work!

We keep it simple ... for you!

Whether it's from the ground up or renovating an existing space, from initial site consultation through to project completion - we support and guide you every step of the way.

Our interiors are inspired by one thing: your business. We start by listening. A total understanding of what makes your business work drives smart solutions.

Our reputation and success stem from an intuitive ability to design for the people who ultimately use and experience a place - your customers, employees, guests and residents.

Our designers, tradesmen and suppliers are the very best and our equipment is state-of-the-art - so you receive only the highest quality fixtures and fittings.

Our in-house manufacturing means greater control over project quality and turnaround, and gives clients more choice and flexibility.

Our seamless project management and communication process ensures your project runs as smoothly as possible. No detail is overlooked. Nothing slips through the cracks.

Our depth of experience together with rigorous cost controls and comprehensive compliance knowledge save you time and money, and enable us to produce faster results so you can get on with business.
