

If you're designing or building, you need a Building Certifier

CODE Group are specialist commercial Building Certifiers, Surveyors and Access Auditors

We offer a comprehensive range of professional services which integrate the concept, design, approval and project completion for the property and construction industry.

We understand the practical demands of the construction industry and make every effort to assist our client in finding solutions to compliance problems.

Each project is approached with integrity and professional confidence to deliver the best possible solutions and premium service to our clients.

We understand the urgency of your project and that it can't move forward unless we do our part so we contact you at times during our assessment to let you know how it is progressing.

"Our mission is to manage risk for our clients in design and construction to ensure they meet statutory obligations whilst achieving project objectives and outcomes"
