

# TUTORING WITH A DIFFERENCE!

**Would your child benefit from some extra tutoring? Does your child find some aspects of the curriculum challenging? Would you like to increase your child's confidence and approach to learning?**

If you have answered yes to any of the following, we can help.

As you know every child is different and has a unique learning style. How they interpret situations and what beliefs they form through life's experiences can impact their learning and thinking. At Mojo Training we work with children on an academic as well as behavioural level. We work on breaking those beliefs and negative thought patterns to enable more effective learning, motivation and positive thinking.

Our strategies incorporate a highly effective pedagogical approach as well as psychological strategies (including the well known Neuro Linguistic Programming) to get results that last. We work 1:1 or in small groups as we feel it is important for your child to get the attention they need at this level of tutoring.

If you want to know more please call us or drop in for a chat and free assessment.

## Meet the trainers!

Matt Beeston is a trainer, coach, tutor and teacher. He works with children, adults, organisations and schools guiding them to excellence. Matt was an Advanced Skills Teacher and Assistant Headteacher in the UK with over 12 years teaching experience. Matt is a NLP Master as well as qualified Teacher and uses leading edge psychological techniques to enhance learning and understanding in children. Matt is also an FA qualified coach and semi professional soccer player and undertakes sports coaching with both children and adults.

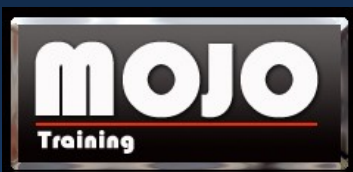

Dawn Beeston has 18 years experience working with children and adults. Dawn has a degree in people management, is a NLP Master Practitioner and qualifications in psychometrics. Dawn undertakes life coaching along with learning, development and change work.
