

SHEER BLINDS

Overview

Since its beginnings in 1996, Sheer Blinds has established itself as an industry leader in the manufacture and development of highly functional internal and external shading systems.

Our diverse product range is aimed at providing clients with innovative and stylish performance based solutions.

Advanced engineering and technology means these blinds can be used in a range of settings, including those where extremely narrow, large or oversized windows exist.

Function

Our products are designed to actively and effectively control light, glare and solar transmission whilst providing excellent degrees of privacy and screening.

Range

Our product line includes:

Internal

Roller Blinds
Roman Blinds
Aluminium Venetians
Panel Glides
Multistop and Skylight Blinds

External

80 C Rolled Edge, 100 Flat and 120 S
Wind Stable External Venetians
Wire Guided and Side Channel Rollers
Folding Arm Awnings
Zipscreen and Track Systems

Control

Individual or multiple blinds can be motorised and easily controlled by means of wall mounted switches, remote controls and/or integration into Building Management Systems and CBUS
