

ARBONNE EVOLUTION™ THERMOBOOSTER

ThermoBooster was developed for those embarking on a weight management program. It provides 400 mg per day of Svetol® (green coffee bean extract), which in a clinical trial was shown to help study participants manage their weight. Additional ingredients such as green tea extract, caffeine, quercetin and chromium help support metabolism and thermogenesis. **#2618; \$79** 🌐

Talking Points

- ThermoBooster contains a blend of targeted ingredients that may assist with weight management efforts when combined with a calorie-controlled diet and regular exercise.
- Use with other Arbonne products, such as Arbonne Evolution Full Control, for additional weight management support.

BENEFITS

- Helps support metabolism and thermogenesis
- When taken twice a day with a meal, helps support weight management goals
- Gluten-free

KEY INGREDIENTS

Svetol (Green Coffee Bean Extract)

- Contains chlorogenic acids
- May assist in reducing the absorption of glucose in the small intestine, which may help support weight management

Green Tea

- Contains natural caffeine to help support thermogenesis
- Contains the antioxidant epigallocatechin-gallate (EGCG), which contributes to the protection of cells from oxidative stress caused by free radicals

FREQUENTLY ASKED QUESTIONS

- Q. What is thermogenesis?**
A. Thermogenesis is essentially the production of body heat. It is an important part of the metabolic rate, and science has shown that supporting thermogenesis could support an increase in energy use. Increasing thermogenesis may aid in weight management, although this has not been definitively shown.
- Q. Do I have to take ThermoBooster twice a day?**
A. In clinical studies, 400 mg of Svetol was taken daily to obtain the reported benefits. Therefore, we recommend using ThermoBooster as directed for maximum benefit. Always read the label and use only as directed.
- Q. How much caffeine is in ThermoBooster?**
A. ThermoBooster contains 45 mg of caffeine per tablet.
