

Testimonials

▶ "Having had Craig service my vehicles for over a period of 10 years I'm one very satisfied customer. His business not only services my private vehicles, but also vehicles I depend on in my transport business. As a business owner, I have all the confidence in Craig keeping our vehicles on the road, and the manner in which he conducts his customer service, I couldn't be more impressed. Over the years, I have recommended family and many friends to his business and will continue to do so with confidence. His efficiency is my reliability. The other 4 transport companies that I work in conjunction with, can honestly say that **Perkins Automotive** is very much a part of our businesses. Many thanks Craig for all your efforts."
Matt Taylor, DM Transport Pty Ltd

Car 21 that ran in the 2009 Variety Bash

▶ Dear Craig,
I would just like to write you a quick letter to thank you so much for helping me prepare my 1967 model HR Holden for the 2009 Variety Bash.
From the minute we left Sydney to head on our twelve day journey the car ran like a dream. I can't explain how much of a hard time the Bash cars go through. I just wanted to say thank you for all the effort you put in to getting the car ready for those twelve days. I must say without your input and ideas it would be fair to say Car 21 would not have made the distance, a lot of cars did not.

Rodney Rodziewicz – Car 21
