

About Us

JRC Paving is one of Perth's leading paving contractors delivering quality service at an affordable price. Established in 2011, Our experienced paving installers have assisted with both commercial and residential paving projects across the city. Our team possess more than 16 years of paving experience and are insured professionals who will treat your property with respect and great care.

Whether you're looking for a traditional paved driveway or something in a unique pattern or design, the team at JRC Paving can install premium quality pavers that are durable and sure to leave a lasting impression. We offer a quality workmanship guarantee, so you know the product and service you receive is of the highest quality every time.

Service Offerings

JRC Paving primarily works in the installation of commercial and residential paving projects. We can assist with all forms of paving including:

- Driveways
- Patios
- Alfresco areas
- Verandahs
- Carparks
- Feature Paving

We also offer paving repair and restoration services to maintain and bring new life to your old pavers. Our skilled paving contractors have a wealth of knowledge in a range of pavers and paving installations and can ensure your repairs and restorations are completed with similar or exact match pavers for a seamless finish.

JRC Paving also offers soakwell installation and repairs. We offer onsite assessments to ensure we provide you with the appropriate soakwell for your needs. If you have a broken or damaged soakwell, we will repair or replace with minimal interruption or hassle.
