## English tuition

Children can struggle to express themselves when writing, spelling or even giving a speech at school. We provide a patient environment to assist our students to develop their skills and to achieve their potential.

At our English tuition centres in Kenthurst and Baulkham Hills

1. All our English students work towards excelling in **story-writing**, where they expand their sentences, using more descriptive words, editing & organising the sequence of their stories.
2. **Comprehension** is addressed by looking at literal questions and inferential questions.
3. **Spelling, grammar and punctuation** are our focus.

Pacific Tutoring provides individualised program to suit your child.

**Let's get started. Call 1300183488**
