

A breakthrough – play piano immediately

Simply Music is a revolutionary Australian-developed piano and keyboard method that offers a breakthrough in music education. This unique approach has students of all ages, playing great-sounding contemporary, gospel, classical, blues and accompaniment pieces – immediately – from their very first lessons!

Simply Music focuses on the sheer pleasure of playing. The 'hands-on' approach, and immediate results, actively dispel the notion that learning to play means enduring years of lessons, boring practice sessions and relentless hours of drills.

How is Simply Music different?

- The quantity of music you learn
- The quality of music you immediately learn to play
- The speed of your progress
- The ease with which you experience the process

The Simply Music Method is based on the premise that everyone, without exception, is naturally musical. Traditional methods insist that beginners learn to read music as the means of learning to play. This removes the natural connection between student and instrument and commonly, it removes all the fun, too.

In fact, expecting children to read music before they've learned to play is like expecting children to read and spell before they've learned to talk.

In stark contrast, Simply Music temporarily delays reading and introduces a revolutionary, 'playing-based' approach – an body of unique concepts that unfold directly onto the keyboard, producing unprecedented results. With Simply Music, you experience the pleasure and satisfaction that comes from immediately playing a huge repertoire of great-sounding music.

Paul Chester
Licensed Simply Music Teacher

"My boys are 8 and 10. They've had just 12 lessons with Simply Music and already know 12 songs. Not just 'Twinkle, Twinkle Little Star' and 'Mary Had A Little Lamb', but real music. The boys are already playing the blues. They think they're hot stuff."

Rebecca Neis

"This is a wonderful music program and the results are astounding! Even if you don't consider yourself musically inclined, this program is for you. I also think it could be a major breakthrough for children with a variety of cognitive delays and learning difficulties. I love Simply Music's approach."

Dr. Anne Margaret Wright (Psy.D.) Educational Consultant

"I have a Bachelor of Music degree from CSULB. Having now seen Simply Music, I wish I would have had your program many years ago. I so strongly believe in your approach that I will promote it every chance I get."

Kathy Troxel
