Plumbing

From kitchens to bathrooms, Service Today can help with the repairing or installing taps,

sinks, showers, baths, toilets and more. We can even help with new water lines, or moving sinks or toilets to new locations.

DRAINS AND SEWERS

Service Today are the drain and sewer professionals in the country, and can help with all blocked drains or collapsed sewer lines. Our state-of-the-art Pipe Patching and relining technology can repair broken drains underground that other companies would have to dig up – saving you time and money.

WATER HEATERS

From repairs to new installations of Tankless Water Heaters – Service Today can have hot water back on for you and never running out.

PIPES AND LEAKS

If you have issues with leaking pipes or pipe corrosion, we can help locate the source of the problem with our CCTV Drain Cameras. In conjunction with our pipe patching technology, we'll have your pipes fixed in no time.

WATER CONDITIONING

with all-of-home water softeners, conditioners and purifiers for the ultimate in clean water.

BACKFLOW PREVENTION

Including annual testing, repairs and new installations of backflow preventers.

Give Service Today a call on 1300 725 760 and let the experts take care of it.
