MISSION STATEMENT

Diverse Industries Australia aims to provide experienced personnel familiar with their roles and a good work ethic which keeps them safer and stress free ready to increase our client's production figures.

PROFILE

Diverse Industries Australia is based in Chinchilla and services the Surat Basin and further afield. We provide services to the gas and mining industries for their labour hire needs as well as all mechanical work for medium to heavy fixed and mobile plants. Our operators have experience and skills for mining equipment, drill rigs, pumping stations, civil and construction equipment and general labour.

Areas of expertise:

Diagnosis

Component change-outs

Mobilizing and demobilizing

Electrical and ECU faults

Servicing and all repairs to engines, transmissions, pumps etc

Late model 4WD mobile field service vehicles are used, complete with all hand tooling, testing and adjusting equipment, gas cutting/welding set, air compressor and related pneumatic tools.

All personnel are mature, reliable and trustworthy and have been chosen with great care by us to satisfy the demands of the Australian gas and mining industries needs and requirements. They are well known to us, including their experience, history and safe work ethic. Our clients will be provided with a resume for each person deemed suitable for your requirements.

BUSINESS SUMMARY

Diverse Industries Australia knows what is needed within our coal & gas industries:

- Equipment needs to be operated by mature and trained personnel.
- All equipment needs to be maintained, serviced and repaired by trained trade's people.
- A commitment to the seriousness of zero harm by striving for no accidents and incidents free!

We believe by providing experienced personnel familiar with their roles is a *safe* way you can achieve and even exceed targets as less pressure is therefore applied to staff keeping them stress free and their morale higher. We want our staff to enjoy their chosen careers.

We are committed to 100% *safety* and will comply with all site health and safety standards.

OUR SERVICES

MECHANICAL OPERATIONS

Trade qualified and experienced fitters supplied and we also can assist with trade qualified boilermakers, auto electricians, servicemen and trade assistants.

All our employees will comply with your sites regulations and provide the tooling required of a heavy diesel fitter trades person.

EQUIPMENT OPERATIONS

Mature and experienced operators of trucks, graders, bulldozers and excavators along with fixed plant operators of drill rigs and pumping stations etc will be provided. We aim to provide operators of a mature nature so they take responsibility for their actions and think before they act striving for an incident free workplace.

Diverse Industries Australia are not limited to those operations listed above but will seek to be of assistance in all areas needed by our valued customers.

EMPLOYEES

Our employees will be supplied with the correct PPE including embroidered Diverse Industries Australia shirts.

We will supply employees with transport to and from your site and negotiate accommodation requirements where needed.
