SOLUTIONS

With NO DEPOSIT you could rent to own a Solar System of your choice

Our Solar Rent To Own systems have opened the door for so many more homes and businesses to go solar without the stress of large deposits and high repayments.

You can install the Solar System size that you need to match your annual electricity bill, and pay less than you would otherwise pay for electricity alone.

The Solar Rent To Own system is fully maintained for the life of the rental period and at the end of the rental term, you own the solar system!

If you can afford to pay your current electricity bill then you can afford a Solar Rent To Own System.

Stop paying your bills and getting nothing for it.

Invest in your future today!

Systems from 1.5kW up to 30.0kW for homes and businesses.
