

## REMOTE SERVICES

OneClick Tech now provides our clients with the ability to remote connect to your PC/ Laptop via a secure Internet connection for quick service response. Once the work is completed we will exit your PC and we will no longer have access.

Examples:

- Email setup and configuration
- Improve Computer Speed
- Windows errors/bugs
- Some Virus/Malware Issues
- Windows and Software updates

## Backup Solutions

We understand the importance of safeguarding your critical data, we will work with you to provide a solution to suite your needs

## Health Checks

To have a reliable & efficient PC it 's very important to service it regularly. Our organization can provide you with a health check to your PC/ Laptop.

Call us to discuss your individual needs.

### Our Philosophy

The strategies of balancing highly innovative research with a steady flow of customized hardware and outstanding technical support, ensures our IT technicians remain at the forefront of fascinating technological advancements whilst developing our core strengths.

Things like Direct and dedicated product support and staff that really go the extra mile. An important part of our philosophy is to work in partnership with clients and this requires direct contact between client and D & A Technology staff from the start of a project.
