Safety

At Dawson Electric, we believe companies that uphold the highest safety standards produce the best results and ensure the best employee well-being. Our commitment to safety ensures that Dawson Electric employees can work in a safe environment. Our employees are equipped & trained to work safely and are well-educated to identify, seek & correct unsafe work conditions.

Our safety culture starts with a strong commitment from senior management, whilst being reinforced by all employees through their effort. All of this is implemented through our detailed Safety Policies & Work Procedures, on-going safety training and a strong safety culture.

This total commitment benefits our clients as well, as it ensures Dawson Electric employees stay health

Guarantee

At Dawson Electric we believe in doing the job right the first time, priding ourselves on quality workmanship - whether for installations, maintenance and repair. Dawson Electric uses only the best quality and quality standards, saving you money in the long term.
