

“Drive Safety”

Looking for Australia’s Most Effective Novice Driver Education?

The most Revolutionary change to Driver Education in 50 years.

Road Safety Educators Australia are leaders in effective road safety education. They train novice drivers using a coaching methodology, in clients learning style referencing the Novice Driver Curriculum® as the syllabus

We coach novice drivers to be:

- ✓ Managers of risk
- ✓ Responsible for actions
- ✓ Follow safe processes
- ✓ Actively avoid other’s faults

When it comes to road safety: Our Vision is Zero

Road Safety Educators Australia, Novice Driver Education

What is the Novice Driver Curriculum®?

The Road Safety Educators Novice Driver Curriculum® is Australia’s most effective and advanced novice driver training program. It gives novice drivers complete knowledge required to perform all the safe processes they need to drive safely everywhere, every day, every time.

Our Rating 1 P-plate drivers receive a Fortnightly or monthly (*s State laws) training session for the learner period, covering 44 modules, including parental guides, support, e-learning and road law updates including defensive driver training.

We impart **Knowledge** so u believe in a safe process, then allow repetitive practice in tailored live environments which initiates a safe **Foundation** , then ensure clients practice until the safe process reaches **Automation**.

Vision Zero

Road Safety Educators Australia has adopted the **Vision Zero** philosophy developed in Sweden

Our goal is to have zero road fatalities across Australia and Countries that adopt our Education Syllabus. The Road Safety Educators Australia Driver Training Program affords Vision Zero, effective success!

This methodology ensures all learning styles and personalities gain the appropriate education and experience to make safe decisions everywhere, every day, every time.

These principles have been developed during extensive research across the world, starting in 2006 and use best practice coaching methodologies developed in Europe.

Does the Novice Driver Curriculum® really produce safer p plate drivers?

Research has shown that our Education program when completed significantly reduces crash rates for new drivers.

In their first six months of licensed driving, our graduates have a significantly lower crash rating than other new drivers, In contrast Australians aged 18 to 25yrs have a 30% increased risk³ and are over represented in vehicle KSI rates across Australia.

Who are Road Safety Educators Australia Trainers?

Road Safety Educators, Australia trains high caliber professionals to become driving instructors or as we prefer to be called, “Road Safety Educators”.

Our educators are at the very top of their field. They have undertaken significantly more training (2.5years) more than driving instructors. They gain a comprehensive education in delivery methodologies, identifying clients learning styles and tailoring

these to an effective delivery methodology option, matched to environments and learning outcomes, referencing Australia's most effective and comprehensive Driver Training syllabus that ensures learning becomes a safe action!

Road Safety Educators work in close partnership with client's supervisors, utilizing e-learning to share the latest road law updates and training techniques as well as offering full back up and support. In car training is offered to assist supervising drivers in how to impart knowledge to your novice driver, so they can put the thought into a safe action.

Why is our Curriculum so Effective? "Drive Safety"

The Novice Driver Curriculum takes a comprehensive and fundamentally different approach to training drivers. We have had a paradigm shift in the way we train novice drivers.

Our students are **coached** to be **active** decision makers, right from the start. Through guided, progressive techniques, they are coached to manage internal and external distractions, and to not only understand, but apply a safe process, the underpinnings of good driving practices that will make them the safest drivers on the roads. Even experienced drivers have shown significant benefits from our delivery methodology.

Road Safety Educators, Australia has invested

over seven years into researching and developing the Novice Driver Curriculum. Using European research that tracked 13,000 novice drivers over a seven-year period, we developed the program in 3 groups .1- Novice driver curriculum as the syllabus, 2-coaching as the delivery methodology and 3-educators to deliver it. We have bridged the gap between theory and practice.

This gives them the awareness and responsibility to make educated safe driving decisions well before they start solo driving and then continue this process whilst licensed.

Only when a thing produces action can it be said to have been truly learned. "Confucius"

Students are often taken out of the car to observe and analyze live processes that most drivers never master, in areas such as vehicle body language, gap selection processes for safe interaction with traffic streams, and every other process that makes driving safe. The **knowledge** they acquire through this process lays the **Foundation** for safe driving throughout their lives.

Factors such as personal risk taking, training methodology, learning style, environmental risk, distractions, vehicle dynamics, road law,

- ✓ **Knowledge** - Provide the criteria in a methodology that is understood.
- ✓ **Foundation** – demonstrate the criteria as an action in a tailored live environment
- ✓ **Automation** – ability to repeat a safe process in all live environments.

continuous calibration, eco driving, risk

management, interaction with other road users and the driving environment, have all been built into the curriculum.

Course Details: "Drive Safety"

Cost: \$ per session (1 hour).see your local provider
Hours: 30 sessions conducted over two years or 12mths* (for 16-18 year olds). Including 5 initial shared sessions with Supervising driver and client. We offer full support to parents.
