

Has your pipes burst?

Do you have water spraying everywhere?

First thing you should do is turn your water meter off by turning the tap or lever handle ball valve clockwise. Your water meter is usually located near the front boundary of your property. Then you should call ABA Plumbing & Gas.

A burst pipe can be alarming & inconvenient. Not to mention damaging if it isn't fix promptly. Unfortunately they can happen at any time but if you call now, we will be there to fix it – 24 hours a day, 7 days a week.

Call (08) 8297 7637 now.
