

Up Elevators, Down Laneways

We travel by scooter, bicycle and ute to anywhere in Melbourne's CBD and surrounding suburbs. Whether you work on the 20th floor or live in a terrace or apartment, we can do any odd job, and fix almost anything, quickly and reliably. It's an honest-to-goodness, high-quality, handyman service.

Residential

A hole in the wall that needs a patch and paint or a sticky door that just won't close?

It doesn't matter if you're in an apartment, townhouse or terrace, if it's a handyman's job, we can do it. We can change light globes, hang pictures and doors, assemble flat pack furniture, or build a wall.

Small, seemingly insignificant odd jobs are encouraged. And if you've got a long-list of odd jobs, don't fret, we like those too.

Our handymen are very handy at fitting into your schedule, so you don't have to wait around all day.

Commercial

A new partition wall or a whiteboard in the boardroom?

Whether you work in an office, bar, restaurant, shop, studio or clinic, if it's a handyman's job, we can help. We can assemble a desk, patch and paint a wall, change light globes, or move a filing cabinet.
